**Our Commitment**

Fairmont Hotels & Resorts is committed to environmental protection and sustainability guided by our very own Green Partnership Program. Our Green Partnership Program, a company-wide stewardship program, strives to minimize our properties' operational impact on the environment through resource conservation and best practices.

**In delivering this commitment, all of our Fairmont Hotels & Resort colleagues will endeavour to:**

Work diligently to minimize our waste stream and conserve natural resources, particularly through energy and water conservation

Value the natural and cultural heritage of our properties, allowing us to give our guests an authentically local experience

Comply with all applicable environmental legislation and strive to follow best environmental practices

Make environmental considerations an important aspect of decision-making

Review the objectives of our Green Partnership Program on a periodic basis

Build local partnerships in the communities where we do business. These partnerships allow us to share our stewardship message, effect positive environmental change, and raise awareness for our guests and colleagues.

Promise to consider the opinions and feedback of our guests when examining our environmental programs and procedures

Identify areas for improvement and innovation at the property level and support the efforts of the Green Teams at each of our properties
