Our Story

Our lives are tied to the earth unto which we are born. Our physical, mental and spiritual bodies are deeply intertwined to the seasonality of our planet. There are moments of transformation available to use all throughout our lives and often are brought on by the natural changes around us. More often than not, presenting us with an opportunity to shed the old “leaves” and blossom anew and take one step closer to our true selves.

Leaf spa is the embodiment of the seasonality of life. Incorporating elements of nature in our treatments, we remind you that universally we are all one and come from the same place. Our intention is to bring you back to the source from which you came, so that like the foliage of nature, you can embrace the changes that may be presented in your life and align with the strength that each season presents.

Amenities

Intention Tree

Traditionally native, local and indigenous, intention trees are symbolic and represent hope. We created the intention tree in our spa to allow our guest to remember everything starts with a dream and anything is possible.

Hot Steam & Cold Water Immersion

Switching between the two extremes causes blood vessels to repeatedly constrict and open, leading to a pumping effect that increases blood flow and delivers more oxygen and nutrients to the tissues. It's thought that this may reduce swelling, improve muscle function, and promote healing.

Willow Tree

Willow trees represent the balance, harmony, and growth we experience through these storms and life challenges. The willow tree gives us hope, a sense of belonging, and safety. The ability to let go of the pain and suffering to grow new, strong and bold.
