SIGNATURE EXPERIENCES

At Fairmont Spa, we have created experiences that help us connect with our internal energy, inspired by a combination of elements, natural ingredients and traditional medicine techniques.

The Mayans, as great astronomers, based their life on the movement of the sun, stars and moon. They believed and relied on their cycle, which held a very special meaning, correlating in the same way as Fairmont Spa with the elements of nature.

That is why we have developed these experiences based on the lunar cycle and hand in hand with Mayan cosmogony.
